### **DETAILED ACTION**

This office action is in response to the preliminary amendments filed February 19, 2004 and May 24, 2004.

#### ***Drawings***

Figure s 5(a)-5(g) and 6(a)-6(f) should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### ***Allowable Subject Matter***

Claim 7 is allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of claim 1 is the inclusion therein, in combination as currently claimed, of the limitations of forming an SOG layer from a coating liquid containing polysilazane having a part of the active hydrogen of the polysilazane replaced with a trimethylsilyl group. These limitations were found in claim 1 and are neither disclosed nor taught by the prior art of record, alone or in combination.

Art Unit: 2822

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Yudasaka (US 5,989,945), Usami (US 6,222,269), Machida (US 6,232,216), Fukuyama (US 5,770,260), Shin (US 5,665,643) and Shin (US 5,310,720) disclose making an SOG layer from a coating liquid of polysilazane. None of these references disclose substituting the hydrogens of the polysilazane with a trimethylsilil group.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christy L. Novacek whose telephone number is (571) 272-1839. The examiner can normally be reached on Monday-Thursday and alternate Fridays 7:30 - 5:00.
